Component Director Report-Michigan

Greetings, I hope this report finds all our members in good health. The Michigan Association of Orthodontists has decided to make our annual meeting for 2020 a virtual meeting to keep both our members and the public safe during these trying times. Both speakers, Dr. Christian Groth and Dr. Courtney Dunn will be presenting at the meeting, which will have CE credit available. We are working closely with our virtual meeting vendor to ensure the best possible experience for our members and their staff!

The MAO board has continued to stay in touch with Governor Whitmore's administration, specifically the health department to ensure Michigan orthodontists are allowed to continue to safely practice during this pandemic. Our membership remains strong, and board positions continue to be filled. I want to thank all our board members for their continued dedication, hard work, and flexibility while supporting our members.

Respectfully submitted,

Fatima Ahemd DMD., MS

Michigan Component Director
