

MAO Component Report Spring 2023

Greetings GLAO constituents! The Michigan Association of Orthodontists is all set for yet another fantastic annual meeting on March 17, in Grand Rapids, MI. We are pleased to have Dr. Jeff Kozlowski speak on important issues in orthodontics including; Comprehensive Early Treatment, Management of Impacted Canines, CL III correction, and Clinical Efficiency. The meeting is for both doctors and team members, CE credit will be given. There is still time to register at [register for MAO](#).

In other news, the MAO has been working diligently for over a year with our state board rules committee to establish rules and regulations that support our members ability to practice orthodontics safely and effectively in Michigan. Please contact me, your Michigan Component Director with any questions, as well as any interested in serving at the MAO or GLAO level.

Respectfully Submitted,

Fatima Ahmed
Michigan Component Director
